Belmont High School

Project update

August 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Belmont High School upgrade

A major project is underway to upgrade Belmont High School. It will deliver new permanent flexible and innovative learning spaces, four new special education learning spaces with associated amenities and sensory garden, new commercial and domestic kitchens, a new canteen, upgrades to the administration area, school frontage, and landscaping.

Progress summary

Works are progressing well with the project on track to be completed by late 2019.

The school is transitioning into new and refurbished facilities in stages as they are completed. A major milestone was reached this week with special education classes excited to be able to move into their new learning spaces in the new Block I. Other areas which have been handed over for early use include the:

- new commercial and domestic kitchens (Block I)
- newly landscaped quadrangle area adjacent to Block I
- refurbished visual arts, technology and textiles learning spaces (Block J)
- ground floor of the extended admin area (Block A)

Next steps

Upcoming work activities include:

- constructing Albert Street access road and vehicle turning circle
- completing new canteen (Block I)
- repurposing of Block B into performing arts learning spaces
- completing refurbishment of TAS facilities in Block C
- completing new Covered Outdoor Work Area (COWA)
- landscaping including a new learning circle
- removing existing demountables

Ongoing work areas are fenced and hoarded off from the school with separate access established for construction workers.

We are here to make sure that work is completed safely and efficiently. We will continue to work with the Principal and staff to ensure that disruptions are minimised.
